Answers for the VR-diner game

1.

The clocks together form a code. The correct order of the code can be traced by means of the Roman numerals on the four different clocks. The code is: 3458. When this code is entered correctly, you will see a video of a body being dragged away from the restaurant. So where did the murder take place is in the restaurant.

2.

Four different dishes can be found in room 2. The suckling pig, the chicken, the oysters and the apple pie. At the bottom of the menu is a link to a Facebook account with a price list for different weapons. If you add up the prices of the suckling pig, the chicken, the oysters and the apple pie, € 300.00 comes out. The revolver costs € 300.00 and is therefore the murder weapon.

3.

Room 3 contains five different airline tickets. There are also two hidden in the boxes on the right and left side of the player. When all destinations of the airline tickets are connected to the map, a dollar sign will come out. The motive for the murder is therefore money.

4.

There are 6 people in the fourth room. The 6 people must be in the correct order from top to bottom (old to young) in the family tree. The correct order is John, Joseph, Silver, Murphy, Monty and Daniel. After these heads are clicked in the correct order, a secret door appears from the bookcase. There is a flashlight in this bookcase. When the light is turned off, a secret message appears on the wall that is only visible with the flashlight. Here is V for Vendetta. The list of possible suspects states that Fabio has become an opera singer and has just released a new album called for Vendetta, which means revenge in Italian.
