*VR Stripclub
Escape Game*

Level 1: Maurice

Take pictures of the 4 bikinis in de room.

You can find the binikis:

- Above the hot tub (light blue)
- Above the bed/next to the door (dark blue)
- On the bed (salmon colored)
- Near the sink (lila)

When you take a picture of a bikini in VR, you can see a letter next to the bikini, when you look through the photocamera. When you do this with every bikini, a specific order will appear.

- Light blue (D)
- Dark blue (A)
- Salmon/pink (B)
- Lila/purple (C)

In real life, there are rubber duckies. The colors of the bikinis match with the rubber ducks. Every ducky has a number on it. If you place the colors in the correct order (Dark blue, salmon, lila and light blue) then it will show the number +31 346 230 012.

- Dark blue = +31
- Salmon = 346
- Lila = 230
- Light blue = 012

This is a phonenumber that needs to be called.

If you call the number, you will hear a voicemail saying the name Sarah.

Enter this name on the keyboard that appeared on the wall.

After the video you will hear the final solution: 36 hours ago with Karma on the Catwalk.

Level 2: Karma

There are several amounts on the menu. You need to give Karma the following amounts of money to get information:

- 200 euro
- 250 euro
- 500 euro
- 1500 euro

In order to give her money, you need to pick up the money with the hand, then you need to throw it to her. Do this until the correct amount appears behind "Money given". Click on Pay Karma to give her the money.

You don't have enough money to pay her for everything at once. That's why players need to earn money in real life. They do this by guessing the skylines they see at "Karma's favorite destinations", 3 of the skylines you see here belong to an actual city. Enter the name of the cities in VR to get more money. You earn 500 euro with every city.

The cities are:

- Rio
- Sydney
- New York

The final solution should be clear after all 4 videos: 3 days ago, at the door, with (bouncer) Shaquille.

Level 3: Dave

Click on the picture frame.

The code 271097 appears, this code opens a suitcase in real life.

Take a look at the information inside and click on the "interrogate Dave" button above Dave.

Answer the questions:

- Rachid
- Lumion
- 500000
- 24
- Information

Dave tells you the final solution: 4 days ago, at the bar with Leo.

Level 4: Leo

Look at the cocktail menu and find the Drunken Leopard drink.

Click on the following ingredients to mix the drink:

- Rosemary
- Orange
- Cucumber
- Rum
- Martini glass

The rosemary and orange are right in front of the player, on the bar.

The cucumber is to the left.

Rum and the martini glass are behind the player, to the left.

The final solution appears: 48 hours ago, to the toilets with Donnie.

Level 5: Lola

Click on "Start the lapdance" and Lola will start her lapdance. The player needs to pay attention to everything she says and shows. You can also find these items in real life.

Make sure that the parts that need UV light, are written on with a UV marker.

- Her swallow tattoo matches the matchbox with the swallow on it. You can read 2 days on this matchbox (with UV light).
- She holds up a pink dildo, which shows 2 days in real life (UV).
- She says "Sum up the amount of days", "To the podium" and "25 grams".
- The players need to weigh the bags of powdered sugar/icing sugar by using the scales. The bag containing 25 grams will have the information: 1 day on it.
- Lola her snake tattoo matches the icon of Dave in the biography book.

Below is another, short summary:

- Swallow = 2 days
- Pink dildo = 2 days
- 25 grams = 1 day
- Snake = Dave
- To the podium

Everything combined is the final solution: 5 days ago with Dave to the podium.

Level 6: Donnie

Click on "Information?".

Click on the red pill. This is the only pill that matches color in real life.

After that you need to click on all hallucinations: 3x mandrill, 5x clock, 3x astronaut, 2x knight, 1x orca, 3x woman.

You can also find the hallucinations in real life. You can read the solutions on the back of the correct hallucinations by using UV light. (Note that you need to write the answers on the back side yourself, using a UV marker).

- 3x mandrill = 6 +
- 5x clock = 9 +
- 3x astronaut = 6 +
- 2x knight = days
- 1x orca = Maurice
- 3x woman = hot tub

If you combine everything, you get the final solution: 21 days ago, Maurice, hot tub.

Final level:

You got a final solution in each level. You need these solutions for the final level. In real life you have vertical strips containing a time, place and name.

You solve the final level by rearranging the strips in a chronological order and placing it on the map of the game.

- 36 hours ago, Karma, Catwalk
- 48 hours ago, Donnie, Toilets
- 4 days ago, Leo, Bar
- 5 days ago, Dave, Podium
- 21 days ago, Maurice, Hot tub

When everything is placed correctly, you will see circles around certain numbers, these numbers reveal the code 3,0,7,5.

This code will open a safe in real life.
