

Undercover questions and answers

1. Depositbox

Discretion and trust are cornerstones within the network of Marco V. His "runners" (the couriers) brought the revenues of each quarter to an anonymous deposit box at the bank. Every week they were told part of the code at this location, each time by a different person. Previous infiltrators have received the following sections:

6 8 2 <one number is correct and in the right place

6 1 4 <one number is correct but in the wrong place

2 0 6 <two numbers are correct but in the wrong place

7 3 8 <nothing is correct

7 8 0 <one number is correct but in the wrong place.

Question: What is the correct code?

Answer: 042

2. Newspaper cryptex

According to various sources, Marco V. regularly places short articles in the newspaper in which he processes secret announcements of emergency meetings for his organization. Each article comes with a cryptex, the first of which was found at this location. It is still unknown how the numbers relate to the words of the article.

1:1:4

1:2:6

3:2:4

Answer: Sunday evening at Tony's

3. Routepuzzle

The bulk transport of drugs from city to city was done by Marco V.'s own transport company. Every runner (courier) received a transport briefing with the locations to be driven. However, when checking the routes we discovered that they were completely illogical. Again, it seemed to indicate a secret number, which we suspect was used for internal verification within the Marco V. network.

The routes:

Harlingen - Groningen - Almelo - Almere - Almelo - Duisburg - Breda

Eindhoven - Leeuwarden

Assen - Den Helder - Amsterdam - Amersfoort - Nijmegen - 's-Hertogenbosch - Breda

Which code form the place names? Take a picture of it and send it for checking.

Answer: Making a photo of the number 315

4. License plate

A car is parked here every month, each time with a different number plate, probably made by the organization. We suspect that the gang has a system in the license plates that are attached to the car, so that they can change every month, but the couriers know which vehicle they need.

The license plates of the last vehicles were as follows:

- on the front of the car
- on the rear of the car
- LR 75 48

What will the registration number of the next vehicle be?

Answer: IO 97 96

5. Benny L

Benny L. Seems to be one of the important links in the organization of Marco V. He was seen by various eyewitnesses in this place. We suspect that some of the eyewitnesses have been bribed by Marco V. since some are incorrect. Below all received descriptions:

- Green eyes and a beard
- Blond hair and brown eyes
- Brown eyes with a blue cap
- Dark hair and no beard, dark eye color
- Blond hair and a beard

The images in the attachment are in our database as possible photos.

Which picture is Benny L?

Answer: Photo 3

6. Map

In the appendix there are three so-called "heat maps" that have been intercepted from the former workspace of one of Marco V's henchmen. Each heat map shows the amount of police activity in the field of drug prevention. We suspect that by combining these cards, the Marco V. team will choose their next locations for expansion.

What is the most likely province for expansion?

Answer: Groningen

7. XTC Molecules

The XTC that is produced by the organization of Marco V. has a unique molecular structure. The lab results are almost complete, only the latest information is missing. Below the main structure, the value of one last molecule is missing.

Which unit (number) belongs to the empty molecule?

Answer: 12 or 15

8. Lab puzzle

In the lab where the XTC was produced, the following lab setup has been found. By finding out how his XTC is made, there is more clarity on the street about which XTC comes from Marco V.

Which of the conical flask (can) fill itself first?

Answer: F

9. Coordination puzzle

In an intercepted message, Benny L, accomplice of Marco V., passed on coordinates. Each series of coordinates can be entered on google maps and lead to a location. It is suspected that they all point to one capital city (of the Dutch provinces), but we don't know how he does it.

The coordinates:

From 51.799068, 4.690010 to 53.056489, 5.864740

From 52.878360, 5.397722 to 51.883647, 6.033221

Which provincial capital comes from the above coordinates?

Answer: Arnhem

10. 06-number

An informant overheard a telephone conversation from Marco V. at this place. He passed on a mobile telephone number, but the number was very strange. This was what he passed on:

4 - 10 - 5 - 6 - 13 - 5 - 10 - 4 - 11 - 13

Which telephone number do you need to call?

Answer: 06 12 91 60 79

11. Selfie assignment

Marco V. has contacted and requests a photo of your team for verification. Make sure you shoot a selfie that you are happy with. As a result, Marco V. will not realize what you are up to.

Answer: A happy photo

12. Contact schedule

Marco V. has a fixed schedule from where people worked. Each headpiece a fixed order in which he / she was scheduled. To be found in your file in a document with the schedule of the past three weeks, the logic in it has not yet been discovered.

What does the schedule of week 4 look like?

Answer: Option 1

13. Drug circulation

After large distribution, every XTC pill comes into the hands of resellers, who often add an icon to it (a so-called "re-press").

Look for the right document with the familiar forms of the pressers in your file.

Sign the original Logo of Marco V.

Answer: Circle with one indent/slash

14. Drug circulation

As far as we know, Marco V. has hidden the coordinates of his stock in a safe. Try to open the safe or the coordinates are still in it. If not, he is on the trail of you. The code of the safe is equal to the number of kilos of drugs that Marco V. carries.

According to reliable sources, Marco V. has six main transporters, who are only allowed to transport 22 kilos per load to guarantee discretion, on average two loads per quarter go with each transporter.

How many drugs is in circulation every year?

Answer: 1056

15. Parking spot

Marco V. is extremely careful not to fall into patterns. That is why he changes car and license plate from time to time. It is known that he often parks his car at the location below, but due to the strange numbering, our team has so far failed to locate this parking space.

In which parking area is Marco V.'s car parked?

Find the parking space in your file.

Answer: 87

16. Boxes

Marco V. uses a very sophisticated method for his money distribution. He has the money sent from the runners to himself in one of three boxes. The other two boxes contain transmitters, which ensure that if this (the wrong) box is opened, Marco will be alerted and receive GPS coordinates. Each runner is instructed to send directions with three different telephones for opening. Only one clue seems to contain the solution, but nothing is less true, according to infiltrators, only one of the sentences is true

In the file you can see a document with the boxes and sentences we intercepted.

Only one of the boxes contains the money and only one sentence is true. In which box is the money?

Answer: Box B

17. Code lock

One of the buildings in this area is used as a transfer location for goods by the organization of Marco V. There is a code lock with keys in the building. One of the times someone has gone in, an infiltrator has succeeded in decrypting the code. The infiltrator has noted this code on the page of the newspaper article.

What is the code?

Answer: 02182

18. Secret language

For fear of being discovered, Marco V. regularly uses outdated equipment such as the use of scents instead of letters. Use the odor chart in your file. Smell the scents well. Find the corresponding code in the column.

Take a group photo with the answer.

Answer: Geld (money in Dutch)

19. Secret trade

Marco V. is always smarter than everyone. It appears that he has hidden his money in one of the gadgets in the suitcase. He always provides his money with his own code. What is the code?

Answer: 207002

20. Decoder

How good you have almost found the location. At this location we have intercepted a letter from Marco V. his associate Lennard K. Try to decipher the letter and find out where the stock is hidden.

Where is the stock hidden?

Answer: Sea container or container

21. Location

You have found the location! As you are used to from Marco V., the container can be opened with a code.

The LB of Max Cross minus the LB of Max Cargo.

The KG of Max Coss minus the KG of Max Cargo.

Subtract the outcome of the KG from the outcome of the LB.

On the photo you can find a table where the numbers are converted into Letters.

What is the Code?

Answer: Euro
